PROGRAM

SITER ACADEMY
PRESENTS

ARTIFICIAL INTELLIGENCE ENGINEER

FOR REFERENCE

- DESCRIBE, PLAN & MANAGE AI WORKLOADS
- DESCRIBE PRINCIPLES OF MACHINE LEARNING ON AZURE
- DESCRIBE FEATURES OF COMPUTER VISION, NATURAL LANGUAGE PROCESSING & GENERATIVE AI WORKLOADS ON AZURE
- IMPLEMENT GENERATIVE AI SOLUTIONS
- IMPLEMENT AN AGENTIC SOLUTION
- IMPLEMENT COMPUTER VISION SOLUTIONS
- IMPLEMENT NATURAL LANGUAGE PROCESSING SOLUTIONS
- IMPLEMENT KNOWLEDGE MINING, INFORMATION EXTRACTION SOLUTIONS AND DOCUMENT INTELLIGENCE.

**CAPSTONE PROJECT IN
ARTIFICIAL INTELLIGENCE**

**MICROSOFT'S
AI 900, AI 102 LABS**

GOA TECH BOOTCAMP PROGRAM

SITER ACADEMY
PRESENTS

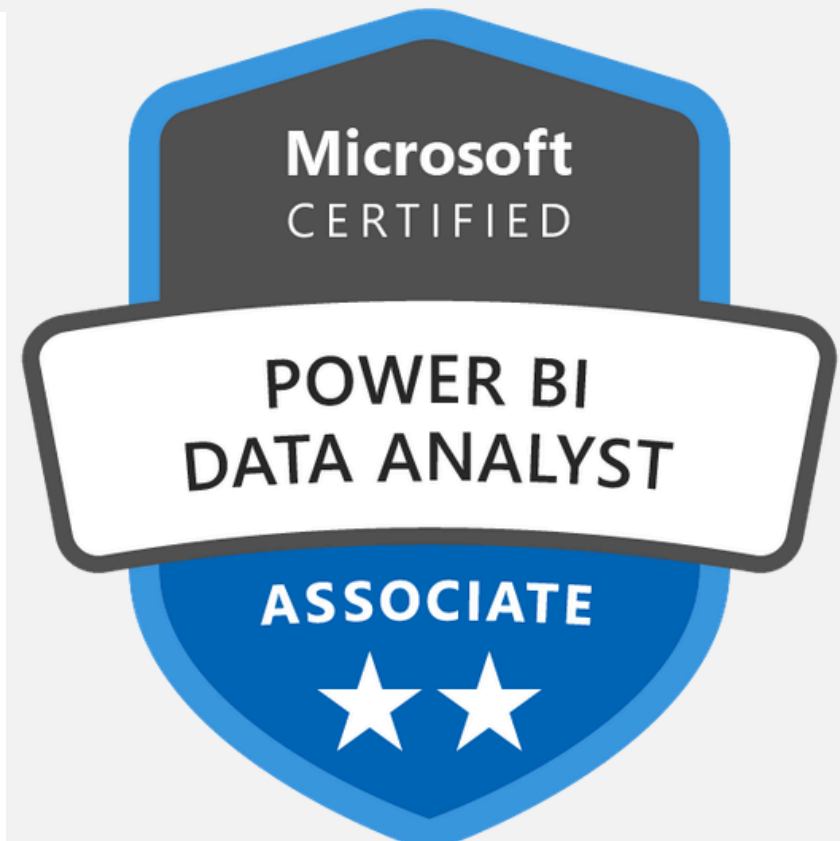

DATA ENGINEER FOR REFERENCE

- DESCRIBE CORE DATA CONCEPTS
- IDENTIFY CONSIDERATIONS FOR RELATIONAL AND NON RELATIONAL DATA ON AZURE
- DESCRIBE AN ANALYTICS WORKLOAD ON AZURE
- MAINTAIN A DATA ANALYTICS SOLUTION USING MICROSOFT FABRIC.
- PREPARE AND ENRICH DATA FOR ANALYSIS.
- SECURE AND MAINTAIN ANALYTICS ASSETS
- IMPLEMENT AND MANAGE SEMANTIC MODELS
- PREPARE, MODEL, VISUALIZE AND ANALYZE THE DATA USING POWER BI.
- MANAGE AND SECURE POWER BI.

**CAPSTONE PROJECT IN
DATA ENGINEERING**

**MICROSOFT'S
DP900, DP600, PL300 LABS**

PROGRAM

CLOUD
ENGINEER
FOR REFERENCE

• **CLOUD DEVELOPER**

- DEVELOP AZURE COMPUTE SOLUTIONS AND STORAGE.
- IMPLEMENT SECURITY, MONITOR SOLUTIONS

• **CLOUD ADMINISTRATOR**

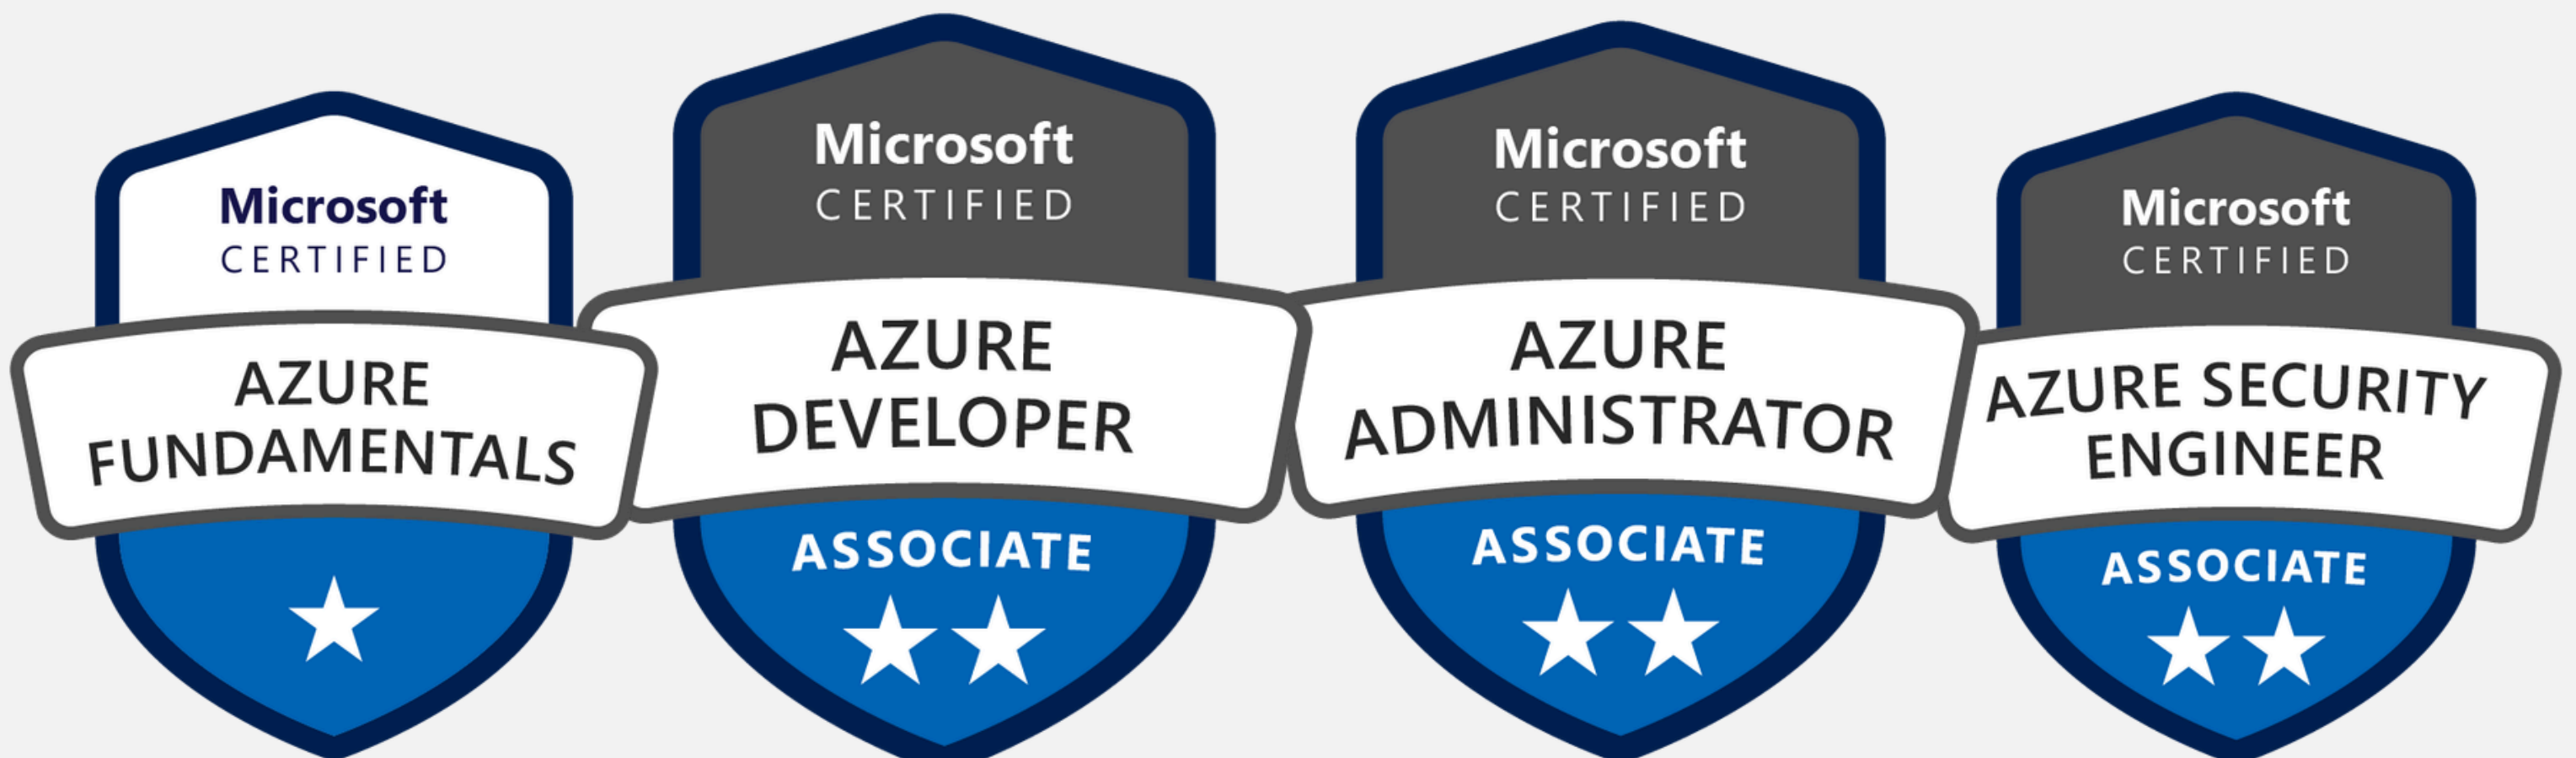

- DEPLOY AND MANAGE AZURE COMPUTER RESOURCES
- IMPLEMENT VM, VIRTUAL NETWORKING AND MONITORING

• **SECURITY ENGINEER**

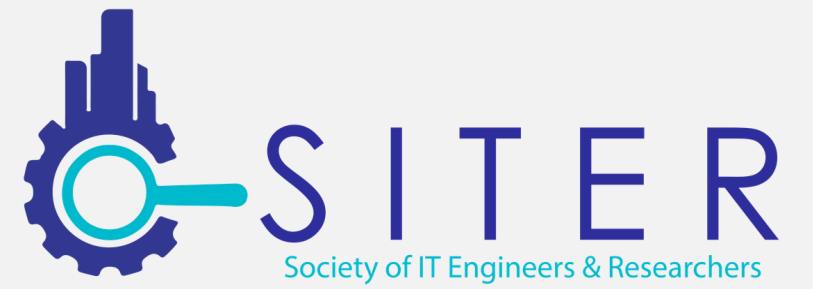

- SECURE IDENTITY, ACCESS, NETWORKS, COMPUTE, STORAGE, DATABASES AND ALL CLOUD RESOURCES.

BECOME A CLOUD DEVELOPER, ADMINISTRATOR OR SECURITY ENGINEER (CAPSTONE PROJECT)

MICROSOFT'S
AZ900, AZ204, AZ104, SC900, AZ500 LABS

GOA TECH BOOTCAMP PROGRAM

FAQ Frequently Asked Questions

(1) Why should I attend this bootcamp?

This bootcamp begins with a 4-hour workshop session (Onsite in Goa, India) that introduces you to Microsoft technologies used in AI, data and cloud applications. The knowledge you gain from this workshop about AI, data, and cloud domains will help you decide which one to pursue further. If you enroll in a program (AI, Data or Cloud), your skills will be validated by SITER during the studies and you will get a Course Completion Certificate, that improves your resume and raises your chances of being considered for tech jobs in the field you have chosen.

(2) Which is better, Microsoft's or SITER's certification?

They are both connected. Microsoft usually validates your skills through MCQ's and gives you certification that has validity for one year usually and should renew it continuously. On the other hand, SITER validates your skills through blended ways, such as Industry based Projects, Assignments with Technical Documentations and Presentations, which leads to Industry type of training and prepares you in the format of on-the-job training. And the SITER's course completion certificate has long-time validity as long as the technology and domain you deal with exists.

Besides that, Microsoft certifications demonstrate your knowledge and skills for a specific role. As example, you may get a Microsoft Certification as Cloud Developer. You need separate certifications for other roles like Administrator and Security. Through SITER, your skills for multiple roles will be validated and you will get Certification as Cloud Engineer that consists of Developer, Administrator and Security Engineer roles and your prospective employer will be happy to see you as you are fit for all these major roles in cloud development, infrastructure and security.

It is advised that you first complete the SITER's Course Certification, demonstrate your proficiency, and then sit for the Microsoft Exam to gain global recognition.

FAQ

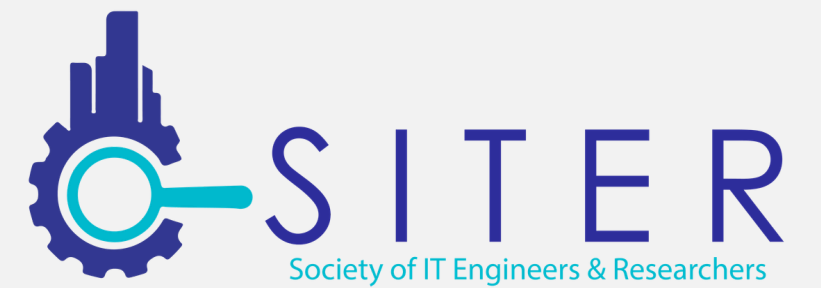

(3) Why should I join SITER Academy to learn Microsoft technologies when Microsoft has self-study documentation and has option to learn everything from internet?

SITER offers courses that are aligned with Microsoft Certifications, as SITER is the AI Cloud partner of Microsoft. Learning from an accredited academy has its own advantages.

Learn from Internet	Learn from SITER Academy
<p>Unstructured No guidance to choose the right material, right approach and methodologies for a solution</p>	<p>Structured Learning Path Follows Industry curriculum deliver in a logical-progressive manner for meeting learning goals</p>
<p>No Direct Supervision No focal point of guidance to lead to reach the goal, no live support</p>	<p>Expert Instruction and Supervision Professional guidance towards goal with direct project supervision and follow-up.</p>
<p>Just learning how to implement The open source learning materials and videos helps to implement something, but not teaching how to behave in a scenario.</p>	<p>Develops problem solving skill Agile Approach - Norwegian SWiT model Focusing to change the mindset of the student, end result is an interview success</p>
<p>Lacking Learning Environment No way of collaborative learning and team projects, no skilable labs</p>	<p>Provides Professional Learning Environment Peer Interaction, networking, group projects and presentations - access to Skilable Labs</p>
<p>No Third Party Assessment No Mentor for the Feedback</p>	<p>Formative & Summative Assessments Peer Review and Continuous Feedback for Improvement of the assignments</p>
<p>No Accreditation No way to validate skills effectively except some online exam certification</p>	<p>Awarding Certificate after validating skills in various aspects (projects, team work and attitude)</p>

FAQ Frequently Asked Questions

(4) What differs our training methods from others?

SITER is Microsoft's AI Cloud Partner. Our programs are job oriented, follows industry curriculum, supervising industry kind of projects with the opportunity to do research, 24/7 remote assistance, 1-on-1 technical support, materials in form of lecture videos, PPTs, Microsoft Learn documentation guided references, sample projects with solution, pre-recorded workshops, live meetings, continuous assessments & feedback, Microsoft Labs and the programs taught by the well experienced university professors from Norway having PhD and Microsoft Certifications. We provide virtual labs and skill validation software that you may access from your computer's browser for hands-on practical exercises in AI, Data, Cloud Developer, Administrator and Security.

WORKSHOP LOCATION

TUTTLE BEACH RESORT
MORJIM, GOA

- 29 Kms/ 45 mins by taxi from Manohar International Airport, Goa.
- 20 Kms/ 40 mins by taxi from Thivim Railway Station, Goa.
- Goa sightseeing will be arranged up on request.
